To whom it may concern.

As a co-author of the paper by Bollimpalli et al. titled "Disc instabilities and nova eruptions in symbiotic systems: RS Ophiuchi and Z Andromedae " published in MNRAS, 2018, 481, 5422, I provided some technical guidance regarding dealing with the properties of unstable discs and helped with the editing of this paper. I contributed about 8% to the total effort of this paper.
