Prof. Ryszard Szczerba,
The Chair of the Scientific Council,
Nicolaus Copernicus Astronomical Center

As a co-author of the paper by Bollimpalli et al. titled "Looking for the underlying cause of black hole X-ray variability in GRMHD simulations" accepted by the Monthly Notices of the Royal Astronomical Society, I provided data for three out of five simulations used in the paper. I did negligible analysis and editing, and contributed no more than 5% to the total effort of the paper.
