<ul style="list-style-type: none"> insertion of catheters (without the cost of catheter). 	Free of charge, unlimited
LABORATORY DIAGNOSTICS	
Diagnostics performed in accordance with medical indications on the basis of a referral from the Service Provider's medical doctor at facilities indicated by the Service Provider via the medical helpline.	
1. Haematological and coagulation tests:	
<ul style="list-style-type: none"> Activated partial thromboplastin time/Kaolin-Kefalin time (APTT) prothrombin time (PT), thrombin time, fibrinogen (FIBR), blood count with complete differentiation of granulocytes, blood count without smear, haematocrit, red blood cell count (ESR), leukocytes, platelets, reticulocytes, haemoglobin, 	Free of charge, unlimited

2. Biochemical tests:

- albumin,
- alanine transaminase (ALT),
- aspartate transaminase (AST),
- amylase,
- total protein,
- C-reactive protein (CRP),
- direct bilirubin,
- intermediate bilirubin,
- total bilirubin,
- ceruloplasmin,
- chlorides (Cl),
- total cholesterol,
- HDL cholesterol,
- LDL cholesterol,
- lactate dehydrogenase (LDH),
- alkaline phosphatase (AP),
- total acid phosphatase,
- steroidal phosphatase,
- phosphates,
- gammaglutamyl transpeptidase (GGTP),
- glucose,
- phosphocreatine kinase,
- creatinine,
- uric acid,
- lipidogram,
- urea,
- osteocalcin,
- potassium (K),
- proteinogram,
- sodium (Na),
- glucose load test,
- triglycerides,
- total calcium (Ca),
- vitamin B12,
- iron – total binding capacity (TIBC),
- iron (Fe),
- ferritin,
- glycated haemoglobin (Hb1aC),
- transferrin.

Free of charge, unlimited

3. Serological and immunological tests:

- HBs antigen,
- antistreptolysin O (ASO),
- determination of blood groups A, B, O, Rh(D) with assessment of haemolysis,
- Waaler-Rose reaction,
- VDRL reaction (USR/RPR),
- antibodies to HBs,
- Coombs BTA test,
- screening for antibodies,
- rheumatoid factor (RF),
- steroid-specific antigen – total PSA,
- total immunoglobulin E (IgE),
- antibodies to thyroid peroxidase (ATPO),
- antibodies to thyroglobulin (ATG),
- antibodies to Chlamydia trachomatis (IgA, IgG, IgM),
- antibodies to Helicobacter pylori,
- HBe antigen,
- antibodies to HBe,
- antibodies to HCV,
- HIV virus – COMBO test (HIV1, HIV2 antibodies, p24 antigen),
- antibodies to rubella (rubella) (IgG, IgM),
- antibodies to toxoplasmosis gondii (IgG, IgM),
- antibodies to infectious mononucleosis/ EBV (IgM).

Free of charge, unlimited

4. Hormonal testing:	
<ul style="list-style-type: none"> • thyrotropin hormone (TSH), • aldosterone, • dehydroepiandrosterone-sulphate (DHEAS), • oestradiol, • adrenocorticotrophic hormone (ACTH), • folliculotropic hormone (FSH), • luteinising hormone (LH), • cortisol, • parathormone (PTH), • progesterone, prolactin (PRL), • prolactin (PRL), • prolactin (PRL) after metoclopramide, • testosterone, • total triiodothyronine (TT3), • free triiodothyronine (fT3), • total thyroxine (TT4), • free thyroxine (fT4). 	Free of charge, unlimited
5. Bacteriological examinations	
<ul style="list-style-type: none"> • throat culture, • throat culture with antibiogram, • wound culture, • urine culture with antibiogram, • general stool culture, • stool culture for Salmonella-Shigella, • rectal swab culture, • semen culture, • sputum culture. 	Free of charge, unlimited
6. Urine examinations	
<ul style="list-style-type: none"> • amylase in urine, • general urinary examination (profile), • protein in urine, • glucose in urine, • creatinine in urine, • calcium in urine. 	Free of charge, unlimited
7. Faecal examinations	
<ul style="list-style-type: none"> • general faecal examination, • faecal occult blood, • parasites/parasite eggs in faeces, • food debris in faeces, • stool for lamblia ELISA. 	Free of charge, unlimited
8. Other examinations	
<ul style="list-style-type: none"> • cervical cytology (excluding liquid cytology), • fine needle biopsy of the thyroid under ultrasound guidance (with possibility of histopathological examination), • skin allergy tests – food panel, • skin allergy tests – inhalation panel, • skin allergy tests – mixed panel. 	Free of charge, unlimited
RADIOLOGICAL DIAGNOSTICS	
Diagnostics performed in accordance with the medical indications on the basis of a referral from the Service Provider's medical doctor at facilities indicated by the Service Provider via the medical helpline.	
<ul style="list-style-type: none"> • X-ray of the skull, • X-ray of the frontal region, • X-ray of the mandible, • X-ray of the jaw, • X-ray of the nasal sinuses • X-ray of the nose, • Orbital X-ray, 	Free of charge, unlimited

<ul style="list-style-type: none"> • X-ray of the supraorbital region, • X-ray of the mandibular conjunctiva, • X-ray of the zygomatic-jaw region, • X-ray of the larynx, • X-ray of the nasolacrimal duct, • X-ray of the nasopharynx, • X-ray of the salivary glands, • X-ray of the thyroid region, • X-ray of the uvula, • X-ray of the soft tissues of the chest, • X-ray of the spine (complete, cervical, thoracic, lumbar and sacral), • X-ray of the shoulder, • X-ray of the scapula, • X-ray of the sternum, • X-ray of the ribs, • X-ray of the joints, • X-ray of the arm, • X-ray of the elbow, • X-ray of the forearm, • X-ray of the wrist, • X-ray of the hand, • X-ray of the finger, • X-ray of the upper limb, • X-ray of lower limb, • X-ray of the pelvis, • X-ray of the hip, • X-ray of the thigh, • X-ray of the knee, • X-ray of the lower leg, • X-ray of the ankle, • X-ray of the foot, • X-ray of the abdominal cavity, • mammography, • urography (picture of the kidneys, ureters and bladder), • rectal infusion. 	<p>Free of charge, unlimited</p>
---	----------------------------------

ULTRASOUND DIAGNOSTICS

Performed in accordance with the medical indications on the basis of a referral from the Service Provider's medical doctor at facilities indicated by the Service Provider via the medical helpline. Does not include 4-D ultrasound or genetic ultrasound.

<ul style="list-style-type: none"> • Ultrasound of the prostate gland through the abdominal cavity, • Transrectal prostate ultrasound, • Gynaecological ultrasound through the abdominal wall, • Transvaginal gynaecological ultrasound, • Gynaecological screening ultrasound, • Ultrasound of the small pelvis, • Breast ultrasound, • Ultrasound scan of the abdomen and gastrointestinal tract (pancreas, liver, bile ducts, stomach, duodenum), • Ultrasound of the urinary system (kidneys, ureters, bladder), • Thyroid ultrasound, • Muscle ultrasound, • Hip joint ultrasound, • Ultrasound of the knee joints, • Ultrasound of the elbow joints, • Ultrasound of the ankle joints, • Ultrasound of the shoulder joints, • Ultrasound of small joints and ligaments, • Ultrasound of the tendon, • Ultrasound of the lymph nodes, • Ultrasound of the larynx, • Ultrasound of the wrist, • Ultrasound of a finger, • Soft tissue ultrasound, • Ultrasound of pregnancy, 	<p>Free of charge, unlimited</p>
--	----------------------------------

<ul style="list-style-type: none"> • echocardiography (ECHO), • Doppler ultrasound of the abdominal vessels, • Doppler ultrasound of the neck, • Doppler ultrasound of the limbs, 	Free of charge, unlimited
CT AND NMR IMAGING DIAGNOSTICS	
Performed in accordance with medical indications on the basis of a referral from the Health Care Provider's doctor at facilities indicated by the Service Provider via the medical infoline (excluding angioresonance, angiotomography, spiral tomography, cone tomography, virtual CT colonoscopy, HR-CT, 32-slice CT and higher, enterography-MRI, HRT, OCT, SL-OCT). Does not include the cost of contrasting agent.	
<ul style="list-style-type: none"> • CT and NMR of the head (pituitary, sinuses, orbits, temporal bones, neck, larynx, ears), • CT and NMR of the soft tissues of the neck, • Chest CT and NMR, • CT and NMR of the abdominal cavity, • CT and NMR of the pelvis, • CT and NMR of the pelvis, • CT and NMR of the joints, • CT and NMR of the spine (cervical, thoracic, lumbar), • CT and NMR of the upper and lower limbs (hand, arm, forearm, wrist, thigh, shank, foot). 	Free of charge, unlimited
ENDOSCOPIC DIAGNOSTICS	
Performed in accordance with the medical indications on the basis of a referral from the Service Provider's medical doctor in facilities indicated by the Medical Service Provider via the medical helpline (with collection of material and histopathological assessment – in medically justified cases). Does not include the cost of general anaesthesia and video examinations.	
<ul style="list-style-type: none"> • Diagnostic gastroscopy/ gastrofiberoscopy (with possibility of urease test), • sigmoidoscopy, • rectoscopy, • colonoscopy. 	Free of charge, unlimited
FUNCTIONAL TESTS	
Performed in accordance with the medical indications on the basis of a referral from the Service Provider's medical doctor at facilities indicated by the Service Provider via the medical helpline.	
<ul style="list-style-type: none"> • Resting ECG, • spirometry • ECG – 24-hour Holter monitoring • ECG – stress test, • 24-hour blood pressure measurement (Holter method), • EEG – wake-up encephalography (excluding sleep EEG, biofeedback EEG, video EEG) • EMG – electromyography, • densitometry of the spine, • femur densitometry, • bone densitometry of both hands, • tonal audiometry, • impedance audiometry (tympanogram). 	Free of charge, unlimited
MANAGEMENT OF PREGNANCY	
Pregnancy management includes the care of a gynaecologist, consultations and diagnostic tests and active counselling on the physiology of pregnancy and childbirth, in accordance with the scope of the insurance coverage. Examinations are carried out in accordance with medical indications on the basis of a referral from the Service Provider's medical doctor at facilities indicated by the Service Provider via the medical helpline.

HOME VISITS

Medical consultations in the scope of: internal medicine, general medicine or pediatry provided 24 hours a day in the recipient's home, necessary because of the recipient's state of health preventing him or her from going to a medical facility. Home visits cover only cases of sudden illness or sudden deterioration of health, excluding immediate life-threatening conditions. The home visit is intended to provide a diagnosis and start treatment, while the continuation of treatment, as well as follow-up visits, take place at designated medical facilities. The service is provided within the territorial scope defined by the health care provider (information available at the helpline). The decision on the need for a home visit is made on the basis of a conducted interview.

Free of charge, once per year in the 12-month period between the policy anniversaries

PREVENTIVE HEALTH CHECK-UP

The preventive programme is provided without a referral at the establishments specified by the Provider and arranged via the medical helpline. Tests under the preventive programme are not subject to a refund..

- general urine analysis,
- total cholesterol,
- general faecal analysis,
- glucose,
- blood count with complete differentiation of granulocytes.

Free of charge, once a year, without any referral

CONSULTATIONS BY EMERGENCY PHYSICIANS

Medical advices given by specialist physicians specified by the Provider on the date of admission during the hours designated by the medical establishment, necessary due to the client's health condition.

Advices cover only cases of sudden onset of disease or sudden deterioration of health, excluding immediate life-threatening conditions. The decision to consult an emergency physician is made on the basis of the anamnesis taken.

- emergency physician for internal medicine,
- paediatric emergency physician.

Discounts applied in relation to the price of the service in force in the specific medical clinic.
